TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

During the second interview with the Director of Clinical Services regarding the weight gain, she stated that when she had brought this to the nurses attention after the first interview the nurse agreed some assessment of this rapid weight gain should have been done.<br><br>Patient #16's record review revealed that the start of care was 2/19/08. The current plan of care documented the goal "Clients weight will remain stable as evidence by no weight loss/gain greater than 5 pounds as evidenced by monthly weights X 60 days." The patient was receiving Jevity three times per day tube feedings. The patient was considered a high nutritional risk. The agency's documentation did not demonstrate monthly weights being assessed. There was a weight documented on 2/19/08 of 110 pounds. There were no other documented weights. When the Director of Clinical Services was asked how the patient was weighed since she was in a wheelchair, she was unsure. Although she did state she thought that "Trinity services" may have a chair scale. | G 172  |  |                            |  |
| G 251  | 484.52(b) CLINICAL RECORD REVIEW<br><br>There is a continuing review of clinical records for each 60-day period that a patient receives home health services to determine adequacy of the plan of care and appropriateness of continuation of care.<br><br>This STANDARD is not met as evidenced by:<br>Based on documentation review and interview, the agency did not conduct a review of the clinical records for each 60 day period for adequacy of the plans of care.  | G 251  |  |                            |  |

| G 251  | <p>Continued From page 8</p> <p>Findings included:</p> <p>Review of the documentation provided revealed that the agency had conducted reviews until the fourth quarter of 2007. In the fourth quarter (October, November and December) of 2007, the agency did the review but not all disciplines participated. The Director of Clinical Services was the only professional that conducted the review. It was noted that patterns of the clinical record review were brought forward to the professional advisory committee from this review.</p> <p>In the first quarter (January, February, and March) of 2008, the Director of Clinical Service and the occupational therapist participated in the reviews but not a physical therapist, speech therapist or social worker. No patterns or trends were brought forward.</p> <p>In the second quarter (April, May and June) of 2008 the quarterly review was not completed.</p> <p>Interview with the Director of Clinical services confirmed the above information.</p> |  |  | G 251   |  |  |                            |
